1. NATURE OF OPERATIONS AND GOING CONCERN

Kingfisher Metals Corp. (the "Company" or “Kingfisher”) was incorporated under the Business Corporations Act (British Columbia) on September 7, 2017 and its common shares are listed for trading on the TSX Venture Exchange (the “TSX-V”), Frankfurt Stock Exchange and OTCQB Venture Market in the United States. The principal business focus of the Company is the exploration and development of mineral prospects in Canada. The Company’s registered office is located in Vancouver, B.C.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. There is no assurance that the exploration activities of Kingfisher will result in future profitable operations. The business is subject to risk, market conditions, supply and demand, and competition. The Company currently has cash available to meet its administrative overhead and maintain its assets. The recoverability of amounts shown in assets is dependent on several factors. These factors include the ability of the Company to obtain financing to complete the planned exploration, and future cashflow from the Company’s business.

However, there can be no assurance that the Company will be able to continue to raise funds in the future in which case the Company may be unable to meet its obligations. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the statement of financial position. The Company has not achieved profitable operations and has accumulated losses since inception. These material uncertainties may cast significant doubt on the Company’s ability to continue as a going concern.

These condensed consolidated interim financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance of basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed consolidated interim financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2022, which have been prepared in accordance with IFRS issued by the IASB.

The accounting policies applied by the Company in the condensed consolidated interim financial statements are the same as those applied by the Company in its most recent annual financial statements for the year ended December 31, 2022.

(b) Key judgements and estimates

The preparation of the Company’s condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, and contingent liabilities at the date of the condensed consolidated interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Significant areas requiring the use of management judgements, estimates and assumptions include:

- The assessment of whether certain factors (both internal and external) would be considered an indicator of impairment and whether impairment testing is required on the exploration and evaluation assets.
- The determination that the Company will continue as a going concern for the next year.

(c) Basis of Consolidation

The condensed consolidated interim financial statements include the accounts of the Company and its wholly owned integrated subsidiary, Kingfisher Resources Ltd., which was incorporated in British Columbia and is engaged in mining exploration and evaluation activities.

(d) Change in accounting policies:

Amendment to IAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies

In February 2021, the IASB issued amendments to IAS 1, Presentation of Financial Statements and the IFRS Practice Statement 2 Making Materiality Judgements to provide guidance on the application of materiality judgements to accounting policy disclosures. The amendments to IAS 1 replace the requirement to disclose "significant" accounting policies with a requirement to disclose "material" accounting policies. Guidance and illustrative examples are added in the Practice Statement to assist in the application of materiality concept when making judgements about accounting policy disclosures. The amendments are effective for annual periods beginning on or after January 1, 2023, with early adoption permitted. Prospective application is required on adoption. We do not expect these amendments to have a material effect on the consolidated financial statements.

3. EXPLORATION AND EVALUATION ASSETS

Ecstall

On April 10, 2019, the Company completed the Ecstall purchase of 18 mineral claims totalling 20,735 hectares in Northwestern B.C. for 8,200,000 shares (at a value of $205,000) from two executives.

The Company also acquired and staked 13 additional claims on adjacent land (totalling approximately 7,671 hectares).

Thibert

On June 24, 2020, the Company entered into an asset purchase agreement to acquire Thibert claims from Kenorland Minerals Ltd. ("Kenorland") (a company with a common director), consisting of 8 mineral claims totaling 12,475 hectares in Northwestern B.C. for the following:

- 1,000,000 common shares of the Company (issued);
- common shares of the Company equal to a value of $100,000 on the first anniversary date of the listing on the TSX-V (issued); and
- a 2% net smelter return royalty.

On November 15, 2021, the Company staked 2 additional mineral claims adjacent to the existing claims totaling 502 hectares for a cost of $878.

(Expressed in Canadian Dollars)

Goldrange

On April 6, 2020, the Company completed a purchase from Kenorland of three mineral claims totaling 4,504 hectares in Southwestern B.C. (referred to here as Goldrange) for 500,000 common shares of the Company (at a value of $50,000) plus a 2% net smelter return royalty.

Subsequently during the 2020 year, the Company acquired and staked 24 additional mineral claims (totaling approximately 16,574 hectares) by incurring costs of $73,940 and issuing 70,000 common shares (at a value of $14,000).

The Company staked 18 additional mineral claims adjacent to the existing claims totaling 29,953 hectares.

HWY 37

On March 6, 2023 (amended on March 25, 2023), the Company entered into 2 option agreements to consolidate and acquire a 100% interest in a series of mineral claims in the Golden Triangle region of NW British Columbia, which consists of the Ball Creek East, and Hank properties (collectively the “HWY 37 Project”).

More specifically, the Company entered into a property option agreement with Evrim Exploration Canada Corp., a subsidiary of Orogen Royalties Inc. (“Orogen”), for the Ball Creek East project (the “Ball Creek East Option Agreement”), and a property option agreement with Golden Ridge Resources Ltd. for the Hank project (the “Hank Option Agreement”).

Ball Creek East Project

Pursuant to the terms of the Ball Creek East Option Agreement, Kingfisher has the right to earn a 100% ownership interest in the Ball Creek East Project as follows:

Due dates	Issuance of common shares ($)	Minimum exploration expenditures ($)	Cumulative exploration expenditures ($)
Upon TSXV approval (issued)	300,000	-	-
March 25, 2024	400,000	500,000	500,000

5. CAPITAL STOCK

(a) Authorized

Unlimited number of common shares without par value.

(b) Issued and outstanding

During the six months ended June 30, 2023:

On April 3, 2023 the Company issued 2,857,143 shares common shares at a price of $0.105 per share with a value of $300,000 pursuant to the Ball Creek East Option Agreement entered into on March 6, 2023 to consolidate a 362 km^2 copper-gold project in the Golden Triangle region of NW British Columbia. See Note 3.

On April 3, 2023 the Company issued 714,286 common shares at a price of $0.105 per share with a value of $75,000 and paid $25,000 pursuant to the Hank Option Agreement entered into on March 6, 2023 to consolidate a 362 km^2 copper-gold project in the Golden Triangle region of NW British Columbia. See Note 3.

During the six months ended June 30, 2022:

On June 7, 2022, the Company closed private placements for gross proceeds of $4,854,153. The offering was comprised of (i) 15,250,000 charity flow-through units at a price of $0.28 per unit for gross proceeds of $4,270,000; and (ii) 2,433,972 flow-through units at a price of $0.24 per unit for gross proceeds of $584,153.

Each unit consists of one flow-through common share and one half of one transferable non-flow-through common share purchase warrant. Each full warrant shall be exercisable into one additional non-flow-through common share of the Company for 24 months at an exercise price of $0.35. The Company recognized a flow-through premium liability of $610,000.

In connection with the offering, the agent received an aggregate cash fee of $69,500 and 327,083 non-transferable compensation warrants with a fair value of $34,890 (see Note 5(d)). Each compensation warrant will entitle the holder to purchase one common share at an exercise price equal to $0.35 for a period of 24 months.

On June 1, 2022, the Company issued a total of 150,000 common shares at $0.125 on the exercise of 150,000 warrants for proceeds of $18,750.

On March 18, 2022, the Company issued 500,000 common shares at a price of $0.20 per share as part of the asset purchase agreement with Kenorland. See Note 3.

(c) Incentive stock options

The Company has a stock option plan (the "Plan") allowing for the reservation of common shares issuable under the Plan to a maximum of 10% of the number of issued and outstanding common shares of the Company at any given time. The term of any stock option granted under the Plan may not exceed five years and the exercise price may not be less than the discounted market price on the grant date. Unless otherwise specified by the Board of Directors at the time of granting an option, and subject to other term limits on option grants set out in the Plan, all options granted under the Plan shall vest and become exercisable in full upon grant, except options granted to consultants performing investor relations activities, which options must vest in stages over twelve months with no more than one quarter of the options vesting in any three-month period.

(Expressed in Canadian Dollars)

The purpose of the Plan is to provide directors, officers, key employees, and certain other persons who provided services to the Company and its subsidiaries with an increased incentive to contribute to the future success and prosperity of the Company.

On June 14, 2022, the Company also granted 2,000,000 stock options to various directors, executive officers, employees, and consultants. These options are exercisable until June 14, 2027, at a price of $0.30 per share. These options vest over a period of one year.

The following is a continuity of outstanding share options:

	Weighted Average of Options	Weighted Average of Exercise price
Balance December 31, 2021	6,550,001	$ 0.17
Granted during the period	2,000,000	$ 0.30
Balance December 31, 2022	8,550,001	$ 0.18
Cancelled during the period	(205,000)	$ (0.41)
Balance June 30, 2023	8,345,001	$ 0.18

The fair value of each option is estimated using the Black-Scholes option pricing model with assumptions as follows:

	June 14, 2022
Risk-free interest rate	3.56%
Expected annualized volatility	108%
Expected life	5 years
Exercise price	$0.30
Dividend rate	Nil

The following table summarizes information about stock options that are outstanding at June 30, 2023:

Number of Options	Price per Share	Expiry Date	Options Exercisable
400,000	$0.10	October 4, 2023	400,000

9,169,069	$0.35	June 7, 2024	9,169,069
9,169,069			9,169,069

As at June 30, 2023, the weighted average contractual life of warrants is 0.94 years.

6. RELATED PARTY TRANSACTIONS

The aggregate value of transactions and outstanding balances relating to key management personnel for the years ended were as follows:

		June 30, 2023		June 30, 2022
Share-based compensation	$	28,108	$	163,450
Director fees		25,220		25,169
Management fees		198,000		214,167
Exploration and evaluation assets		4,050		7,766
Operating expenses		6,000		6,000
	$	261,378	$	416,552

As at June 30, 2023, $nil (December 31, 2022 - $10,491) is included in accounts payable and accrued liabilities.

All transactions and balances are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

7. FINANCIAL INSTRUMENTS RISK

The Company's financial instruments are exposed to the following risks:

Credit Risk

Credit risk is the risk of financial loss to the Company if counterparties do not fulfill their contractual obligations. Cash and cash equivalents consist of cash bank balances. There are no short-term investments currently.

The carrying amount of accounts receivable and cash and cash equivalents represents the maximum credit exposure. The Company does not have an allowance for doubtful accounts. As at June 30, 2023, there were no significant amounts past due or impaired.

Market Risk

Market risk is the risk that changes in foreign exchange rates and interest rates will affect the Company's cash flows, net income and comprehensive income. The objective of market risk management is to manage and control market risk exposures within acceptable limits, while maximizing returns.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its purchases and capital commitments, and other financial obligations as they are due. The Company's approach to managing liquidity is to ensure, to the extent possible, that it will have sufficient liquidity to meet its liabilities when due without incurring unacceptable losses or risking harm to the Company's reputation.

Foreign Exchange Risk

The Company currently does not have significant exposure to other currencies, and this is not expected to change in the foreseeable future as the capital commitments that are expected to be carried out in United States dollars will be limited.

Interest Rate Risk

The Company is exposed to interest rate risk on its cash and cash equivalents. The majority of these deposits have been in discounted instruments with pre-determined fixed yields. Interest rate movements will affect the fair value of these instruments, so the Company manages maturity dates of these instruments to match cash flow needs, enabling realization at no loss in almost all cases.

Fair Value of Financial Instruments

The fair value of the Company's financial assets and liabilities approximates the carrying amount. Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

During the six-month period ended June 30, 2023 and the year ended December 31, 2022, there were no transfers between level 1, 2 and 3 classified assets and liabilities.

8. CAPITAL MANAGEMENT

The Company manages its capital structure and adjusts it, based on the funds available to the Company, in order to support future exploration and maintain investor, creditor and market confidence.

The Company defines its capital as shareholders' equity and working capital. The Board of Directors does not establish a quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In the event that adjustments to the capital structure are required, the Company may consider issuing additional equity, raising debt or revising its capital investment programs.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital requirements or restrictions. The Company has not paid or declared any dividends since the date of incorporation, nor are any contemplated. The Company may require equity issues to cover administrative and operating cost.

9. SUBSEQUENT EVENT

On August 3, 2023, the Company closed private placements for gross proceeds of approximately $2.8 million through the issuance of 21,632,450 charity flow-through units at a price of $0.12 per charity flow-through unit and 2,325,000 flow-through units at a price of $0.10 per flow-through unit of the Company.

Each unit consists of one flow-through common share and one half of one transferable non-flow-through common share purchase warrant. Each full warrant shall be exercisable into one additional non-flow-through common share of the Company for 24 months at an exercise price of $0.15.

In connection with the offering, the agent received an aggregate cash fee of $9,059 and 45,000 non-transferable compensation warrants. Each compensation warrant will entitle the holder to purchase one common share at an exercise price equal to $0.15 for a period of 24 months.

On August 10, 2023, the Company granted 3,650,000 stock options that are exercisable for a period of 5 years from the date of grant at a price of $0.12 per share.
